CDC Updated COVID- 19 Isolation and Quarantine Recommendations

Source: https://www.cdc.gov/coronavirus/2019-ncov/if-you-are-sick/quarantine-isolation-background.html

Day 0 is your first day of symptoms to calculate your isolation period. Day 1 is the first full day after your symptoms develop. You can leave isolation after 5 full days or 10 full days if you meet any of the criteria below.

You should continue to wear a well-fitting mask around others at home and in public for 5 additional days (day 6 through day 10) after the end of your 5-day isolation period. If you cannot wear a mask when around others, you should continue to isolate for a full 10 days. Avoid immunocompromised people or those at high risk for severe disease, and nursing homes and other high-risk settings until at least 10 days have passed.

If you continue to have fever or your symptoms have not improved after 5 days of isolation, you should wait to end your isolation until you are fever-free for 24 hours without the use of fever-reducing medication and your other symptoms have improved. Continue to wear a well-fitting mask. Contact your healthcare provider if you have questions.

If you Tested Positive for COVID-19

| To end isolation after 5 days: | Should not meet any of the criteria in the box below "10 day isolation period for" Symptoms are improving and have been without fever for 24 hours without the use of fever reducing medications. Continue wearing a mask for the additional 5 days OR if you cannot wear a mask please isolate for the full 10 days. |
|---|--|
| 10 day isolation for the following regardless of vaccination status: | Healthcare personnel – follow up with employer for return to work criteria Cannot wear a mask after the 5 day isolation Work/attend congregate settings such as: jail, nursing homes, daycares, homeless shelters, camps Schools – **See policy for schools below** Children under 2 years of age People with moderate to severe illness (includes difficulty breathing or hospitalization) Immunocompromised People with anticipated travel 2nd antigen test positive after the 5 days of illness/+test Symptoms worsening after 5 days |

If You Were Exposed to Someone with COVID-19

| Who does not need to quarantine? | You are aged 18 or older and have received all recommended vaccine doses, including boosters and additional primary shots for some immunocompromised people. You are aged 5-17 years and completed the primary series of COVID-19 vaccines. You had confirmed COVID-19 within the last 90 days with a positive PCR/antigen test. <i>If exposed (regardless of vaccine status), you should continue to wear a mask for 10 days post-exposure.</i> <i>If you are displaying symptoms, please isolate and seek testing.</i> |
|--|--|
| Who should quarantine? | You are aged 18 or older and completed the primary series of a COVID-19 vaccine, but have not received a recommended booster shot when eligible. You received the single-dose Johnson & Johnson vaccine (completing the primary series) over 2 months ago and have not received a recommended booster shot. You are not vaccinated or have not completed a primary vaccine series. If exposed (regardless of vaccine status), you should continue to wear a mask for 10 days post-exposure. If you are displaying symptoms, please isolate and seek testing. |

COVID-19 For Students and Staff of Monroe County Schools (per State of Florida Emergency Rule and MCSD Policies)

| Students: | If <u>exposed</u> to a positive individual, can continue to go to school as long as there are NO symptoms or may quarantine for up to 7 days. Notify attendance if you choose to stay home to excuse absences. If <u>positive</u>: Out for 10 days and can return as long as symptoms are improving and fever-free for 24 hours without medications. OR Return at any time with negative lab test and NO symptoms. OR Return with a note by a medical provider clearing them to return. |
|-----------|---|
| Staff: | If <u>exposed</u> to a positive individual, can continue to go to school as long as there are NO symptoms or may opt to quarantine for up to 10 days. If <u>positive</u>: Out for 10 days and can return as long as symptoms are improving and fever-free for 24 hours without medications. Reach out to your principal if wanting to return sooner for individual consideration. |
