

PROTECTING OUR PELICANS

Responsible fishing helps save lives.

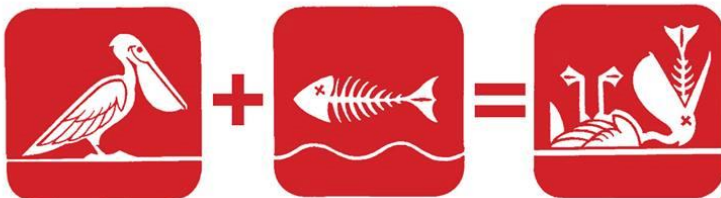

Protegiendo A
Nuestros Pelícanos
La pesca responsable
ayuda a salvar vidas.

View Video

Do not feed scraps.

NEVER cut the line if you
hook a pelican.

Don't cut it. Net it!

Instead, place a net under the pelican,
reel it in, cut the barb from the hook
and push it through backwards to remove.

No cortes. Usa la red.

En cambio, coloque una red por debajo del pelícano, enrolle el carrete,
corte la púa del anzuelo y quite el resto del anzuelo en reversa.
