Wastewater Sampling Update for Concern Virus's – March 18, 2024

CDC Covid-19 Death Rates - State of Florida CDC data

Map of WWTP Partnering With Florida Department of Health (FDOH)

This map shows WWTP partners in Florida who are testing with the Bureau of Public Health Laboratories as part of the Florida Wastewater Surveillance Program or with Verily Life Sciences as part of the National Wastewater Surveillance System. Certain utilities are testing with both entities. This report displays results from the Bureau of Public Health Laboratories in the case of multiple results for one facility.

WWTP-specific SARS-CoV-2 unadjusted concentrations are normalized by flow-population and a minimum of 3 samples are needed to establish a trend.

Summary Report by Tom Harding, based on CDC/Verily and the State of Florida Health Department for Monroe County new Covid-19 cases - data through 16Mr24.
